Work Experience

- The Tech Guy, Tech in Asia (Penn Olson Pte Ltd) *Sep 2014 – Current*
 - I am in charge of hiring the Singapore's development team as well as developing and managing Tech in Asia and its subsidiary websites.
 - Tech in Asia and its subsidiary websites mainly runs on WordPress. I develop custom WordPress plugins and themes to suit its business needs.
 - Scaled techinasia.com from a single server to a multi-server setup that can accommodate more than 3,000 concurrent users.
 - Implemented code deployment process using Capistrano and version control system using Git.
 - Worked with the Vietnam development team to develop a new product called Techlist.
 - It is written in Ruby using the Ruby on Rails web framework.
- Senior Web Engineer, mig33 Pte Ltd *Feb 2010 – Aug 2014*
 - Projects I have done are in PHP that involves various data sources. The projects need to support up to 100,000 concurrent users and 70 million registered users.
 - MySQL as database.
 - NoSQL technologies such as Redis and Couchbase.
 - XCache and dedicated Memcached servers are used for caching.
 - My biggest project with the company is "miniBlog", which is a Twitter clone.
 - Technologies used for this project include PHP as the logic tier and Java as the data tier.
 - XCache is used for caching and Couchbase is used as the database.
 - Internal APIs calls are through REST interface being exposed by JBoss (data tier).
 - CodeIgniter is used as the PHP framework and Twitter Bootstrap, Backbone.js and Marionette.js are used as the presentation framework.
- Web Developer, Sedgwick Richardson (SEA) Pte Ltd *May 2009 – Jul 2009*
 - University internship
 - Developed custom WordPress plugins and themes for Sedgwick Richardson's clients such as World Sport Group and Neptune Orient Lines.
- Web Evangelist, FRRO LLP *Jun 2007 – Jul 2007*
 - Developed the company's corporate website and internal billing system using CakePHP as the PHP framework and MySQL as the database.
- Web Developer, All Events Group Pte Ltd *May 2007 – Jul 2007*
 - Developed the company's customer's database for internal use and corporate website with integration to e-NETS online payment in PHP and MySQL.
- IT Executive, First Food Industries Pte Ltd *May 2006 – Jul 2006*
 - Developed the company's corporate website in PHP and MySQL.
- Web Developer, Premiere Value Group *Jan 2004 – Apr 2004*
 - Polytechnic internship
 - Developed an online education portal entitled, Max Interactive, in PHP and MySQL.
- Help Desk Support, Crimson Logic Pte Ltd *Feb 2001 – Jun 2001*
 - Worked in Crimson Logic's call center as a help desk support for its products such as BizNet, TradeNet and LawNet.

Programming Experience

- WordPress Plugins *2003 – Current*
 - Developed a total of 21 WordPress plugins that have garnered more than 11 million downloads thus far.
 - Constantly provide support for my WordPress plugins in the WordPress Support Forums.
 - WordPress plugins have been featured in WordPress books in different languages selling in different countries, such as WordPress for Dummies.
 - Several Fortune 500 companies are using my WordPress plugins such as Coca-Cola, Xerox, Yahoo, Sony, Ford, etc.
- YOURLS - Your Own URL Shortener *2008*
 - Developed in PHP and MySQL, it shortens long URLs so that it can be used in micro blogging platforms, such as Twitter.
- GaMerZ File Explorer *2006*
 - Developed in PHP, it replaces the default folders and files listings in Apache HTTP Servers.
- GaMerZ error_log Cleaner *2005*
 - Developed in PHP, it deletes all error_log files that are left behind by PHP in Apache HTTP Servers.

Event Experience

- Matt Mullenweg Live! *Jun 2014*
 - Assisted in the organization of a meet and greet session with Matt Mullenweg, who is the co-founder of WordPress, when he visited Singapore in June 2014.
- WordCamp Singapore 2011 *Nov 2011*
 - Assisted in the organization of a WordCamp Singapore 2011 with fellow members from the Singapore WordPress User Group.
- WordPress Singapore Meetup *2009 – Current*
 - Co-founded Singapore WordPress User Group, which organizes WordPress Meetups in Singapore.

Talk Experience

- Guest speaker for Hackatron Asia 2014 *Dec 2014*
